SAVE OUR PARKS!

Protect and invest in the UK's public green spaces
Halt the slide into crisis

Our local green spaces are vital for everyone and every community. They are an essential and unique service promoting people's health, social well-being, community cohesion, bio-diversity & heritage.

We are concerned about the serious long-term damage being caused by dramatic cuts to budgets for staff and maintenance, and the lack of funding and investment by local and national government. This unfolding slide into crisis must be halted.

THE NEXT GOVERNMENT, IN 2015, MUST…

- **Hold a National Inquiry into the funding and management of the UK's green spaces**
- **Bring in a Statutory Duty to monitor & manage these spaces to Green Flag Award standard**
- **Ensure Adequate Public Resources for all green spaces**

We call for all political parties to include these policies in their election manifestos.
